PUBLIC NOTICE

VILLAGE OF CARBON
PROVINCE OF ALBERTA

TO THE PROPRIETARY ELECTORS OF THE VILLAGE OF CARBON

NOTICE IS HEREBY GIVEN that it is the intention of the Village to pass the following By-Laws:

No. 259—A By-Law to authorize the sale of the easterly (30) thirty feet of Lot twenty (20) in Block eleven (11) Plan 4387 P to the Canadian Western Natural Gas Company Ltd.

By-Law No. 267—Being a by-law to purchase Lot twenty-eight (28) Block four (4) Plan 4387 P and the building located thereon from the Carbon Branch of the Canadian Legion for Six Thousand (\$6,000.00) Dollars. Said land and building to be used for the Village office and fire hall.

By-Law No. 268—Being a by-law to acquire Lot twenty-nine (29) in Block four (4) plan 4387 P being the lot adjoining the lot to be acquired for office and fire hall in exchange for Lot thirty-four (34) in the same block and plan being the lot on which is now located the Village office building. The building itself to be retained by the Village and moved to another location.

Also take notice that a poll will be taken of the Proprietary Electors for and / or against the By-Laws.

I, STANLEY F. TORRANCE, Returning Officer for the Village of Carbon for the forthcoming poll, certify that the above is a true Synopsis of By-Laws 259, 267, 268, and the Council will, on the assent of a majority of the proprietary electors voting thereon being secured, give third reading to the By-Laws and pass same.

I also declare that a poll for and against the said by-laws will be held in the Village Office of the Village of Carbon.

And that the polling will take place on Wednesday, the 27th day of April, A.D. 1960, and the polling place will be open for such purposes between the hours of 10 o'clock in the forenoon and 7 o'clock in the afternoon.

Dated at Carbon this 31st day of March, A.D. 1960.

At the Annual Meeting of the Duke of York Chapter, the following officers were elected for the year 1960:

Regent.....Mrs. Ed Ohlhauser
1st Vice.....Mrs. Albert Bramley
2nd Vice.....Mrs. Sam Garrett
Secretary.....Mrs. Syd Bramley
Treas. Mrs. G. C. McCracken
Educational Sec. Mrs. M. Kary
Services at Home and Abroad,
Mrs. Emil Rempfer.
Echoes Sec. Mrs. Earl Ohlhauser.

Standard Bearer Mrs. Ernie Fox
The following Convenors were appointed by the Regent.
Empire and World Affairs, Mrs. Ma't Kary.

Film, Canadianization and Membership, Mrs. Sam Garrett.
Publicity.....Mrs. Earl Ohlhauser
Flower Fund Mrs. Alex Ziegler
Scrapbook Mrs. Albert Bramley

Congratulations go out to Mr. and Mrs. Lan Hay on the occasion of their 60th wedding anniversary Monday March 21.

Sunday a family banquet was held in the United Church basement and there was a family presentation of a T.V. which was installed during the dinner to surprise them on their return home.

Monday open house was held at the home of Mr. and Mrs. Torrance with many old timers

from Calgary and district present to extend their greetings. Cam Kirby, son-in-law of Mr. and Mrs. Torrance, read telegrams from the Queen and Prime Minister Diefenbaker.

Mr. and Mrs. Hay have resided here many years. Mr. Hay delivered mail with a horse and buggy and later with a car. The horse and buggy was known as the stage between Acme and Carbon. Good old days gone by. They are still very active in everyday life and Mrs. Hay is a great W.A. church worker at the Carbon United Church.

We wish them still many more years of happiness together and among us in this community.

WEDDING BELLS COATES—BARNES

Mrs. Gertrude Barnes and Leon Coates were married on March 9th. We wish them every happiness.

BORN—To Mr. and Mrs. Fred Tabert, a son March 26th in Drumheller Hospital.

Mr. Hugh Isaac spent the weekend in Calgary visiting his mother and attending the laymen's dinner held at St. Barnabus Church.

Mr. and Mrs. Henry Jerome and family spent the weekend at the home of their parents Mr. and Mrs. C. Graham. Mr. Graham is not very well.

Mr. and Mrs. Wofer of Medicine Hat were weekend visitors at the homes of their daughters and sons-in-law, Mr. and Mrs. J. Diede and Mr. and Mrs. Theo Harsch.

We were sorry to hear Mr. J. A. Ohlhauser was taken back to hospital suffering a relapse. We wish him a speedy recovery.

Mrs. F. A. Dykes and Mrs. D. Hunt Sr. attended the Annual Anglican Women's Auxiliary Convention this week.

Mr. Ross Thorburn has returned home from hospital.

Hospital patients include in Drumheller, Bill Dixon, Mrs. Van Loon, Mrs. Levins; Mrs. C. O. Martin in Three Hills and Alf Gibson in the Holy Cross and J. A. Ohlhauser in the Calgary General Hospital.

Coming events include a community shower for April bride elect Ann Dixon April 8th; Legion Auxiliary 161 Dance on April 22nd.

GAMBLE NEWS

Mr. and Mrs. Harold Lesperance (nee Marilyn Gibson) and Laura Lee have moved to Standard.

Dave and Grace Anderson were visitors at the home of Mr. and Mrs. Gordon McCracken.

Mr. and Mrs. Dick Garrett visited friends at Carbon recently.

ently.

Leona Rempfer was home from Lethbridge for the weekend.

Mr. and Mrs. Vince Maruz and family and Don Langley

SHARPE'S HATCHERIES

You will see by SHARPE'S Fresh Egg Prices (see Classified Section) that the egg market throughout Canada is strengthening. Eggs set in incubators for laying flock replacement chicks are down considerably from last year. All indications now point to good egg prices throughout the summer and fall. You would be wise to Order your Pullet Chick requirements now and get your birds into early production when the market conditions now look extremely favorable.

We would like to draw to your attention that in addition to SHARPE'S Broad Breasted Bronze and Hybrid Turkeys which have been so popular with our customers we have added the NICHOLAS STRAIN to our list. This strain has proven popular with many raisers and will be available at SHARPE'S. Storage stocks on turkeys are low now and with production of turkey poults running below last year market prospects look very good for turkeys also.

Order your Baby Chick and Turkey Poults requirements now from either of SHARPE'S Hatcheries—

SPANISH CREAM WITH CHERRY SAUCE

One of the many attractive desserts in which eggs play an important part is Spanish Cream. You'll find recipes for various kinds in almost every cook book but here we see a plain Spanish cream served with Red Cherry Sauce.

You can use either canned or frozen canned cherries in the sauce. To make it, mix 1 cup sweetened cherry syrup and 1 cup water with 1 tablespoon cornstarch and cook until thickened. Now add 1 teaspoon butter, 1/2 teaspoon almond extract and about 3/4 cup of the cherries. A few drops of red coloring may be added, if desired. Chill before serving on Spanish cream, blanc mange, custard or ice cream. Good, too, served hot over cottage pudding or cupcakes.

Trends in poultry production, 1960

Recently egg prices in Saskatchewan have strengthened due to shortage of fresh eggs and producers are now receiving 26c per dozen for Grade A Large eggs at Regina egg stations compared to 30c a year ago.

It could well be, if present reductions in egg marketings and chick orders continue, that further egg shortages will develop particularly during late summer and early winter. For this reason it might be well for those with adequate experience and facilities to review the present marketing outlook for eggs.

Egg marketing through egg grading stations in Saskatchewan from January 1 to February 27 have been reduced from 1,838,520 dozen in 1959 to 1,401,990 dozen for the same period in 1960, a reduction of 23.7 percent. The reduction for all egg stations in Canada to February 20 was 2.7 percent.

In 1959 Saskatchewan marketed 11,003,400 dozen eggs through egg stations compared to 12,247,380 dozen in 1958, or a reduction of 10 percent. There was an 8.7 percent increase for Canada as a whole. On February 1, 1960, eggs in cold storage in Canada was 166,000 cases compared to 275,000 cases on February 1, 1959, or 40 percent lower.

Commercial hatcheries in Saskatchewan set an estimated 685,096 eggs from January 1 to February 27, 1960, compared to 1,277,202 during this period in 1959, or a reduction of 46.4 percent. Canada showed a reduction of 27.0 percent to February 20, 1960.

During the first eight weeks of 1960 the marketing of fowl increased in Canada by 25.0 percent compared to the same period in 1959.

Low egg prices which have prevailed in Saskatchewan and Canada during the past few weeks have undoubtedly been a major

LOTS OF TALK

Canadians average 311 telephone conversations per person per year, highest number in any country in the world.

factor in the above reductions. Prices have been down to 14c to 15c for Grade A Large with undergrades at an even lower price. The average egg price has been the lowest since the 1930's and considerably below the cost of production.

Last October the Federal Government established a deficiency payment plan for eggs replacing the price support program. Under the new plan egg prices find their own level on the open market. A deficiency payment may be paid to producers qualifying if the national average price for Grade A Large eggs falls below a prescribed price, which this year has been set at 33c.

It was found that the support price which had been set had become an incentive price and over production resulted. The change in policy has resulted, in a drastic readjustment period, however, since egg stocks have been reduced, prices are expected to strengthen.

High prices will be welcomed and are needed by the producer to cover cost of production. Serious shortages, however, must be avoided. Shortages will result if the present drastic reductions in egg marketings, chick orders and the increase in fowl marketings continue.

It is hoped that the present rise in egg prices will assist in restoring confidence and production will reach a more normal level in all phases of the industry.

For the first five weeks of 1960 turkey poults hatched in registered hatcheries in Canada were down 75.4 percent compared to the same date last year. Saskatchewan was down 36.9 percent. Turkey cold storage stocks in Canada stood at 11,235,000 pounds on February 1, 1960, compared to 18,542,000 for the same date in 1959, or a reduction of 39.4 percent.

The present trend would indicate turkey production will be lower in 1960 and prices should strengthen over what they were in 1959.

SHARPE'S HATCHERY

We are glad to see Bill White around again after his recent stay in hospital.

LONG YEARS AGO

By H. M. I.

15

The items that I have been forwarding to the Carbon Chronicle have been more or less disjointed, for I have typed them as thoughts have occurred to me, and as the mood dictated. I have probably put in things that I should have left out and have not put in things that I should have, and there is no sense in it, but then you can lay the blame on the Publisher and the Printer, for they both asked me to continue.

I remember one day having a haircut under the gentle ministrations of MacQuade, in the building now known as the Legion Hall, but then the pool-room and barbershop. We were chatting on this and that when suddenly the door flew open, Carl Moorhouse poked his head in and shouted, "Mac. Your building over the way is going up in flames!" We had only to look out of the window to see clouds of smoke rising from the building in question—immediately south and across the road from Garrett Motors—but we had been too busy talking to each other. You know what I mean? With ladies it's gossip. With men, it's news.

Mac flew out the door and locked it, then noticed me through the glass panel still in there along with his till. He quickly unlocked the door and I flew out still with the barber's apron on. After getting straightened out, we went to work with the rest of the firefighters to battle the flames. The building was occupied by the late Ramsay Nash at that time, and the roof of the single portion of the structure had caught fire due to an overheated stove.

In no time flat the hose was laid out from the firehall and while some started the engine, others held grimly to the nozzle.

Meanwhile Jim Flaws, as fire chief, had climbed on to the roof and had started using an axe to cut holes in the roof to let the water in. Those who were holding the nozzle could not see Jim, and when the water arrived they squirted it against the side of the building. From there it went high into the air and, describing a graceful arc, came down on top of Jim. Hearing Jim remark something, they realized what had occurred and moved the stream of water along the building—but then Jim had the same idea, and it seemed to us who could see all of the play, that it did not matter where Jim was, the water helped to do double duty for it put both Jim and the fire out.

I am running short of suitable memories for printing, though I have lots about which I dare not write. Consequently

if these notes stop suddenly you will realize that I have dried up, and you will be able to heave a sigh of relief.

CARD OF THANKS

Mr. and Mrs. Lan Hay of Carbon wish to express their sincere thanks and gratitude to their many friends who so kindly remembered them on their 60th wedding anniversary Monday March 21st, 1960.

MIDWAY COMMUNITY NOTES

By MRS. E. J. RICHARDSON

Midway District School Pupils age 13 to 16 held a one-day bonspiel Friday March 11th.

It was a two game total pointspiel with the following winners,

skip, third, second and lead, in that order:

1. Jim Good, Joy Hauser, Judy Harder, Bill Ahlgrim.
2. Doug Brander, Delbert Shiels, Sara Sawatzky, David Sawatzky.
3. Lyle Balderson, Bev. Klassen, Linda Harder, Ralph Bitner.
4. Robert Marsh, Sylvia Good, Viola Harder, Bert Hoskin.
5. Bobby Marsh, Faye Marsh, Donna Cipperly, George Taylor
6. Kenny Weber, Marjorie Balderson, Ruby Milne, Robert Swanson.

There was a prize for all rinks.

The \$5. draw was won by Harold Shiels.

Mrs. Alan Marsh was draw-master and in charge of arrangements.

She would like to thank the ladies and mens curling clubs for the help she received with the expenses, and the Mothers and everyone who helped make this a success. The only disappointment of the day was the lack of spectators.

The Midway Midgets played Carstairs Rockets Tues. evening March 8 on Carstairs ice, winning 5-4. Those with goals to their credit were Debert Shiels 2, Ken Weber 2, George Taylor 1.

Lyle Taylor is attending the last semester at Red Deer composite school taking English and French, wishing to gain his Senior Matriculation.

Mr. Bert Haste, Mrs. Tony

Van Meel and Mr. John MacNaughtan are patients in the Didsbury Hospital.

The wedding dance of Mr. and Mrs. Chester Garnick (brother and sister-in-law of Mrs. H. Pendergast) was held in Lone Pine Hall last Friday evening.

Annie McCulloch accompanied by a girl friend, was home for the weekend previous to leaving the Calgary General Hospital for her next posting on her Nursing Aides training.

Mr. and Mrs. Arnold McCulloch were hosts at a family dinner Sunday March 13 following the christening of their baby daughter Cathryn Gay.

"I pay my gas bill on the budget plan!"

"So do I. It helps me plan my budget knowing my gas bill is the same each month."

A convenient way to budget your monthly gas bill!

EQUAL MONTHLY PAYMENTS . . .

The Gas Bill Budget Plan lets you pay your yearly gas bill over equal monthly instalments. Your total gas bill for the year is estimated, then divided by twelve so you pay the same amount each month the year round. It's more convenient, more practical — evens out your heating bills. Of course, your meter will still be read monthly and actual consumption recorded with the continuing balance noted on your monthly bill.

SIGN UP NOW!

Sign up for the Gas Bill Budget Plan right away! (Application forms available from the local representative of your Gas Company.)

Woman's Way

MADELEINE LEVASON

HURRAY FOR US!

At least 25,000 British women are going to boast about new dresses "Imported from Canada" this year. That is the number of styles already ordered from Montreal manufacturers by Britain, and it is a tremendously exciting development for this country.

The Canadian styles scored a hit when they were shown in London recently. The dress fabrics particularly, created a most remarkable impression among British buyers who declared they were "far superior" to British textiles of the same type. They also called the styles "fresh and original."

It was the first time Canada's fashion houses had received hope of recapturing some of the profitable overseas markets they once enjoyed. In pre-war days Britain was Canada's second largest customer for clothing. South Africa was the largest, but it now has barriers against Canadian exports.

Only eight Montreal manufacturers participated in the recent fashion invasion of Britain when dollar restriction against certain clothing items were suddenly lifted. Although their visit was arranged on very short notice and about one month late for seasonal buying, they stirred up so much interest that some British buyers are now planning trips to Montreal to see more of our fashion products.

The styles shown in London which brought the orders for 25,000 garments, were not, mind you, high priced or high styled dresses. They were spring and summer items in the medium and budget classes.

The fabrics which created such an impression were regular Canadian-made cottons with easy care finishes and fabrics of man-made fibres. Colours, print designs and easy care features brought the enthusiasm.

The eight manufacturers who made the trip to London to return, and many more are expected to go with them to show fall and winter fashions. They are highly optimistic about the business possibilities in Britain's home market of 50 million people, now that Canada has a chance to compete.

Next fashions shown in London will include more high style and higher priced garments. Plans are already underway for a "Canada Week" there and a regular project of promoting and selling Canadian goods throughout the British Isles.

Man may require home in space

A scientist says the United States should explore space because earth-people may have to move there some day from the world which nuclear weapons have made "too small for mankind."

Dr. Arthur R. Kantrowitz said future population pressures on earth might make such space colonization necessary. He said this was one long-range justification for investing in space exploration.

SHARPE'S HATCHERIES

You will see by SHARPE'S Fresh Egg Prices (see Classified Section) that the egg market throughout Canada is strengthening. Eggs set in incubators for laying flock replacement chicks are down considerably from last year. All indications now point to good egg prices throughout the summer and fall. You would be wise to Order your Pullet Chick requirements now and get your birds into early production when the market conditions now look extremely favorable.

We would like to draw to your attention that in addition to SHARPE'S Broad Breasted Bronze and Hybrid Turkeys which have been so popular with our customers we have added the NICHOLAS STRAIN to our list. This strain has proven popular with many raisers and will be available at SHARPE'S. Storage stocks on turkeys are low now and with production of turkey poults running below last year market prospects look very good for turkeys also.

Order your Baby Chick and Turkey Poults requirements now from either of SHARPE'S Hatcheries—

Hats off to this cool'n dainty LEMON LAYER CAKE

Sift together
2 1/2 c. once-sifted pastry flour
or 1 1/2 c. once-sifted all-purpose flour
3 tps. Magic Baking Powder
1 tsp. salt
Cream
1/2 c. butter or Blue Bonnet Margarine
Blend in
1/4 c. granulated sugar
1 tbsp. grated lemon rind
Combine
1 c. milk
1 tsp. vanilla

Beat until stiff but not dry
4 egg whites (at room temp.)
Gradually beat in
1/4 c. granulated sugar
Add dry ingredients to creamed mixture alternately with milk; fold in meringue. Turn into two 8" round layer cake pans which have been greased and lined in bottom with greased waxed paper. Bake in mod. hot oven, 375°, 25 to 30 mins. Stand on racks 10 mins., then turn out cakes; cool.
Split cold cakes; put 4 layers together with Lemon Filling. Top with whipped cream or a sprinkle of icing sugar.
LEMON FILLING: Combine 1/4 c. gran. sugar, 6 tps. flour, 1/4 tsp. salt; stir in 1 1/2 c. boiling water. Cook, stirring, until boiling; simmer 1 min., stirring.
Stir into 4 slightly-beaten egg yolks. Cook, stirring, until very thick. Stir in 1 tsp. butter or margarine, 1 tsp. grated lemon rind, 1/4 c. lemon juice. Cool.

You'll serve it with pride when you say—"I made it myself—with Magic!"

THE HUMBY'S—by McClelland

IN HIS SERVICE

How important are you?

BY JIM FAIRFIELD

What is a human? How big is he, how important? Rather, how small is he, how minute, how seemingly unimportant! A man in India is so unimportant to the rest of the world that it is quite possible for him to starve to death without causing any concern. What is this man but a human organism, one among billions, breathing, walking, breeding, dying. Even a king is king only among his countrymen, king only as long as his heart beats. Eisenhower and Krushchev, important as they are at home, are just unwelcome "white men" to a Mau Mau tribesman or an Auka Indian. Is this God's plan for man?

Just think of a middle sized, middle income, middle Canadian of middle years, not very educated, nor exceptionally trained, just another forty-four hour a week man amongst many. Here is a life pattern duplicated by thousands.

His production rate is average, his fingers and mind are only reasonably nimble. He fouls up the usual number of pieces, gets sharpened by the boss as often as is typical and gets laid off or transferred by situations quite beyond his control.

Even his family is usual, his kids catch flu and miss school as often as the neighbor's children do. They grow out of clothes as fast, and need their teeth fixed as often. His wife shops for bargains, in the same crowded aisles as her neighbor, on the usual skinny budget. Their shoes wear out too quickly, and their car should get better mileage, too. Except where he happens to be born, there is absolutely nothing to distinguish Mr. Same-as-me from anyone else anywhere — in the whole wide world of man.

Kingdom of God

And yet, the moment he opens up his life to the living presence of God, he is made joint heir with Jesus Christ of all power and authority in the kingdom of God! Jesus said, "verily, verily, I say unto you, he that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father. And whatsoever ye shall ask in my name, that will I do, that the Father may be glorified in the Son." John 14:12, 13.

Here is an astonishing fact! Anyone of any degree of station in life who agrees completely and whole heartedly to the direction of their life by the Spirit of God is a partner with Christ in the kingdom of God! Hallelujah!

And being a partner with Jesus Christ, makes available to all believers all the power of God—for the advancement and the singular glory of the wondrous realm of God.

Men of God

Look at the men chosen by God—with us to spread the news of this fantastic spiritual "other world". Look at Andrew—James—Batholomew—Thaddeus, unimportant people, fishermen, tradesmen, civil servants—nobodies. Yet once these men became partners with the resurrected Christ, "they were all filled with the Holy Ghost, and they spake the word of God with boldness." Acts 4:31. Not just the apostles either; the spirit of God empowered—and empowers now—all who believed. Hear what Paul wrote the Ephesians—God is saying it to you, to us all—"For this cause I bow my knees unto the Father of our Lord Jesus Christ . . . that he would grant you according to the riches of his glory, to be strengthened with might by his Spirit in the inner man; that Christ may dwell in your hearts by faith; . . . that ye might be filled with all the fullness of God." Eph. 3:14-19.

Are you aware of the kingdom of God? Does Christ dwell in your heart—are you filled with the fullness of God? Then you know that the life you live has a glory in Him, a beauty unspeakable, filled with joy and love. At least it should be. And it should be filled with mountain moving power, too! "If thou canst believe, all things are possible to him that believeth." Luke 9:23. "And all things, whatsoever ye shall ask in prayer, believing, ye shall receive." Matt. 21:22. Not just some things, or what God wills, but all things—miracles of power and growth in Christ.

Some say, "Oh, but these things are only for the glory of God."

True, for when a believer is filled with all the fullness of God, how will he be able to act but to the glory of God? "Let this mind be in you; which was also in Christ Jesus" was a daring suggestion of Paul to the Philippian Church, for the same purpose—the spreading and advancing of the kingdom of God. Christ in you must increase, self decrease, so that truly Christ may dwell in your heart, and that whosoever then you ask, He may grant it to you.

SPRING THAW HAZARD

As soon as warmer weather starts to soften the ice at the edge of creeks or lakes, another hazard is ready to attract children. Parents and teachers should make a point of instilling into children's minds the danger of trying to walk out or step onto the softening ice. Each spring youngsters are rescued from the waters, often just in time. The greatest danger is that the small body may be swept under the ice, where hope of rescue is poor. Where there is any body of water, large or small, children should not be allowed to play in the vicinity.

TIPS FOR PARENTS

by EDITH HENRY

There's an old saying: "The longest way round is the shortest way home."

Educators, it seems, believe this is true in helping your child to read. They are in favor of our using indirect methods, allowing the schools to do the more direct work.

Indirect methods

Here are some pointers:

—No one can learn without the energy good health provides. Make sure the child is physically in good shape. Teeth and tonsils

tonsils should be free of infection. Sight and hearing should be watched, as the occasional child overcomes and hides poor sight or hearing with cleverness. Periodic check-ups are wise.

—Sufficient rest is important. A tired child cannot learn efficiently.

—Mental health is necessary, too. Strain and upset at home are not conducive to learning at school.

—If the child is proud of his reading, brings his little book home, and wants us to listen, give him undivided attention. Your interest "helps."

—Make your home friendly to reading. Read yourself; read to the family.

Many parents have felt that reading aloud to children discourages them from reading to themselves. We know now that children who are "read to" learn to enjoy books and are more apt to use them.

—Read simple plays together. It can be fun.

—See that there are plenty of interesting books around. They can be the child's own possessions which he will come to love.

They can be library books when the child is ready for greater variety.

—A non-reader can be encouraged by providing something related to his immediate interest.

The slow reader is better with a number of easy books rather than with one which is more advanced. His pleasure and speed are thus developed. He will pick up harder books when he is ready.

Grasshoppers hatch in farmer's house

Steinbach, Man.—Mr. and Mrs. Frank Reinke, New Bothwell, have no particular reason to like grasshoppers, but they were fascinated recently when 13 tiny hoppers hatched out in a flower pot in their living room. Seven more came to join the family next day. Mrs. Reinke who scooped up the soil for the flower pot from beside their house last fall, believes their flaston Hingie digitt-lieves that the eggs must have been laid last year and the warmth of the house finally hatched them.—Carillon News

JAPAN'S INLAND SEA

Japan's inland sea is one of the most dangerous in the world. Twice a day, tides rush through a labyrinth of islands, reefs and hidden rocks, creating tide rips and whirlpools.

FIREMEN on aerial ladders hover over the dense smoke as they battle a fierce three-alarm blaze in Montreal. Five firemen died when the roof of one of the buildings collapsed.

SHOCK

An accident victim may suffer more from shock than from the actual injury. If, after an injury the patient is dazed, with cold clammy skin and cold perspiration on the forehead, and if his breathing is shallow and pulse feeble, he should be treated for shock. He should lie down, warmly covered and, if there is no possibility of internal injury, he can be given warm sweetened tea or coffee. It is important that he be kept quiet. Many injuries have been increased in seriousness by the well-intentioned but mistaken ideas of bystanders who insist upon moving accident victims who may have fractured limbs or internal injury. The knowledge of what to do and what NOT to do in emergency is part of the training given in first aid courses.

Coal oil bogey

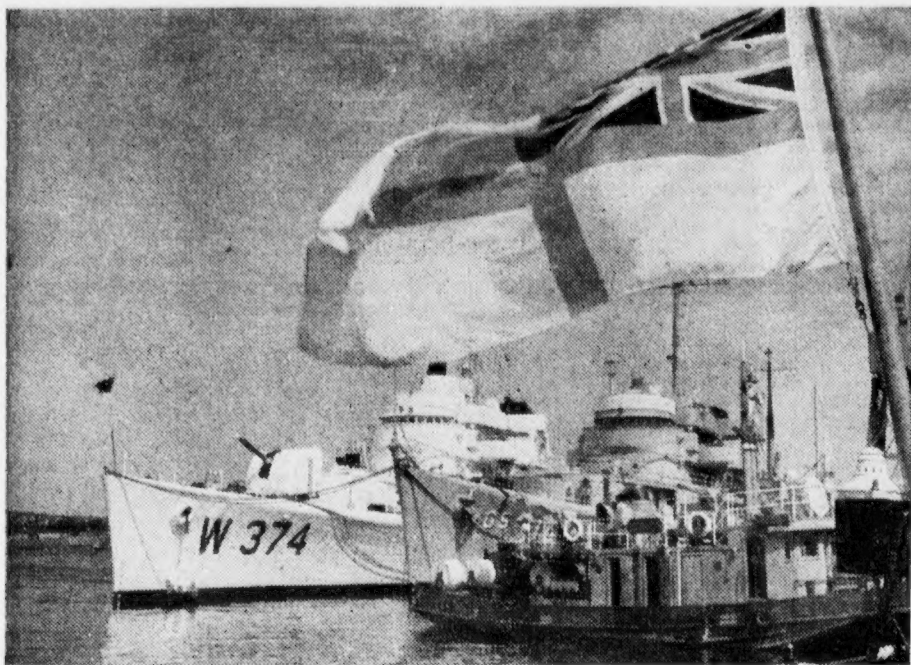

Coal oil is still used in many parts of Canada, in homes and cottages, for lighting and cooking, and, all too often, as an assist in lighting a stubborn fire. This is an exceedingly dangerous practice, often causing a serious fire. Bits of wax paper, milk cartons or thin sticks dipped in coal oil and added to the kindling before the match is applied will usually get the fire going safely. The coal oil should be safely stored, and if there are small children around, put into a place where they cannot experiment with drinking it. Children have died when they have swallowed this poisonous oil.

A head count at the Jacksonville, Fla., city jail showed one prisoner too many at a noon meal.

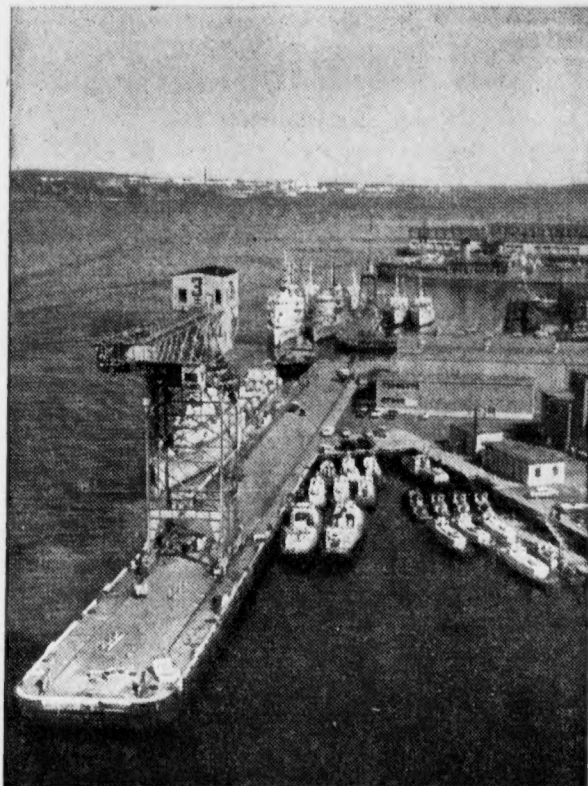

PRINCESS MARGARET and her fiancé, Antony Armstrong-Jones, are photographed at the Royal Lodge at Windsor, about 30 miles outside London. The couple spent the weekend with Queen Mother Elizabeth at the lodge to discuss wedding plans.

200 Years of History

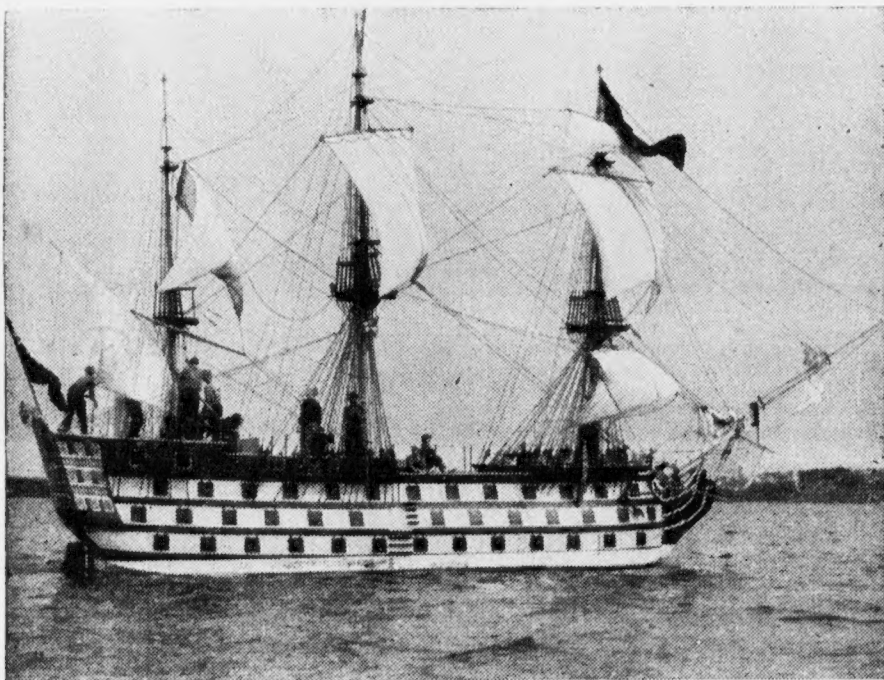

The white ensign has snapped in the salt breezes of Halifax harbour for over 200 years, and during these two centuries of peace and war, this historic naval base has developed to become one of the most important in the world. It was originally built in 1758 as an operational base for Royal Navy ships attached to the American Squadron. Fifty years ago, with the birth of the Canadian Navy, the dockyard (which today occupies 37 acres with a mile of waterfront) passed into Canadian hands.

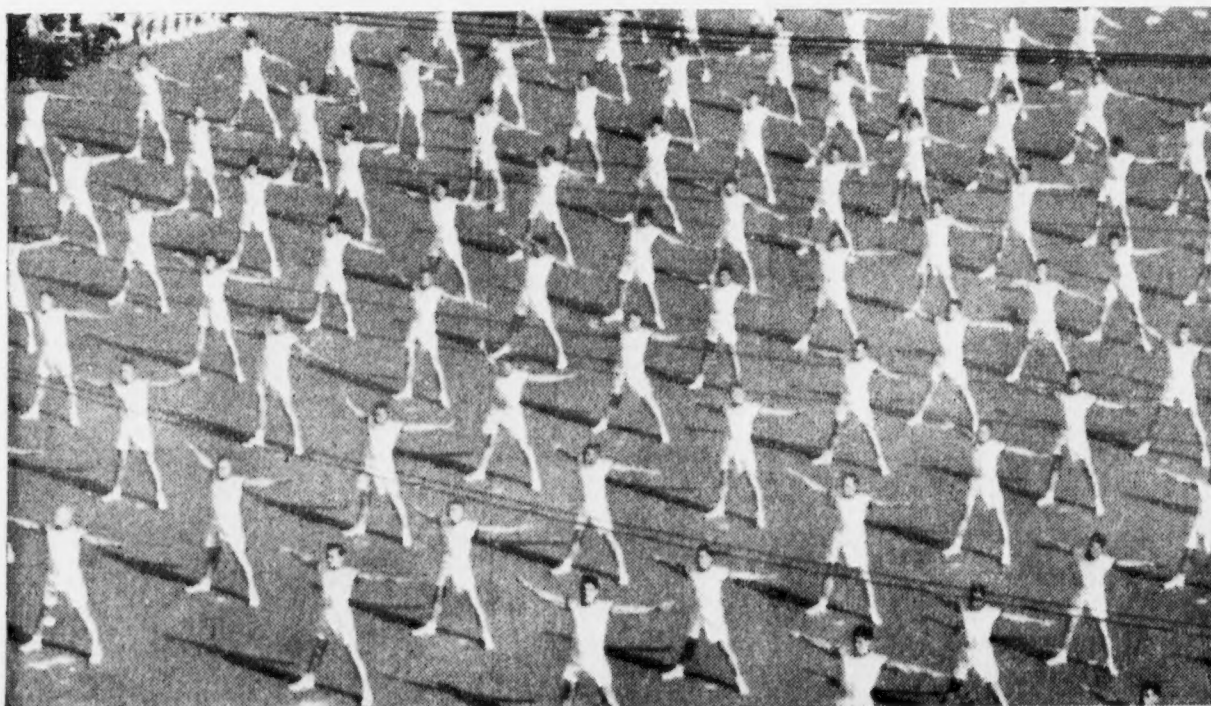

The Second World War saw the emergence of Halifax as a mighty seaport. More than 30,000 ships sailed from this naval fortress during the war years and hundreds of warships were refitted and repaired at H.M.C. Dockyard for yet another turn at sea.

The dockyard presents a vivid study in contrasts: skilled artisans plying ancient crafts, modern electronic equipment devised to frustrate the missile-launching submarine. For Canada's navy, rooted in tradition, has its eyes firmly riveted on the present . . . and the future.

Skilled dockyard shipwrights, working from blueprints, pictures and historical references, built this elaborate quarter-scale model of the 90-gun British warship *NAMUR*, flagship at the siege of Louisburg in 1758, and, in days gone by, a familiar sight in Halifax harbour. The colourful, 3-masted, ship-of-the-line led the parade of ships during last summer's celebrations marking the 200th anniversary of the dockyard. The *NAMUR* will be in the limelight again shortly when the navy celebrates its 50th birthday.

From the tender roots put down on the 4th of May, 1910, when the Naval Service of Canada was officially established, the navy (never a lusty infant) moved into gallant young manhood during the Second World War when the tiny naval force of some 1800 officers and men expanded

dramatically to meet the bitter submarine threat stalking the vital supply lines to Britain. Today, the RCN, a mature and vigorous force, marks its Golden Jubilee with a memorable history of achievement and a proud record of battle honours.

The Bible today

When the raging typhoon was wreaking its frightful havoc in Japan last October, bringing death and injury to thousands and the destruction of property in the tens of millions of dollars, the Japan Bible Society arranged for the free replacement of Scriptures destroyed in that terrible storm. Mr. T. Miyakoda, General Secretary of the Japan Bible Society, reported that four hundred Bibles were thus circulated and 500 Bibles for schools and 15,000 Gospels of John were supplied to other Christian organizations at a considerable discount and were distributed along with relief supplies. The Bible Society van loaded with food and clothing and Scripture portions was also one of the first to arrive on the scene in the devastated areas.

GUARD AGAINST FIRE

THE HEART STORY

BY DAVID SPURGEON

Published for THE HEART FOUNDATIONS of CANADA by The Globe and Mail

Embryo hearts studied for growth defects

A painstaking twenty-year investigation of thousands of unborn hearts is paying off for a tireless University of Alberta scientist. Dr. R. F. Shaner, Professor of Anatomy at the University's Medical School, has examined twenty thousand pig embryos obtained from Edmonton slaughter houses. Each embryo was dissected and the heart examined carefully for indications of malformation. About 100 specimens of abnormal development have been found which were sectioned and modelled in scale for teaching purposes. The years of patient scientific investigation, often frustrated by a lack of funds and assistants, may well lead to new significant knowledge about abnormal heart development — and what can be done to correct it.

The heart begins life as a tiny tube. The tube gradually forms itself into a hairpin-like shape and begins to expand. The two sections grow together and compartments are formed within them. Then the heart, with its four compartments, begins to grow as a unit into an efficient muscular pump. Sometimes something goes wrong with the normal development and the heart develops defects which restrict its normal pumping action.

Just a few short years ago these defects condemned the unfortunate child to a life of chronic invalidism. Today, thanks to ingenuity and skill, corrective surgery to mend malformed hearts is an everyday event. But before the surgeon can operate, he must understand how the heart develops and why it goes wrong. The tiny hearts of unborn pigs collected by Dr. Shaner are equivalent to the human heart in the first three months of growth. The models made from them help Dr. Shaner explain the causes of mishaps in growth that

occur in children. It is a fortunate paradox that although Dr. Shaner has shown how the heart develops and added considerably to the surgeon's knowledge, he is not an M.D., but a Doctor of Philosophy in Anatomy from Harvard. His studies were begun before heart surgery was considered seriously and is an example of the unexpected fruits of scientific curiosity.

In hearts, as in other things, one mistake often leads to another. Thus a wide-open communication between the two sides of the heart often allows a lung vein to migrate to the wrong side of the heart and so frustrate the surgeon's effort to separate the pulmonary vein from the general body circulation of the blood. An abnormal pulmonary vein is a good example of a small added defect, hitherto ignored, which has suddenly become rather important.

The early development of the veins within the chest must now be gone over again with the heart in mind. This is a laborious study. The general plan of the veins is laid down when the embryo is less than a third of an inch long and to study them, such tiny embryos must be injected with colored ink before study. A number of temporary connections of the pulmonary veins are being discovered. When they become permanent, they may produce grave consequences in later life.

Dr. Shaner is now in what he calls "semi-retirement" although most people would not agree that retirement is the proper word. He still teaches anatomy half time, devoting the rest to research financed by the Alberta Heart Foundation.

Photographer to wed Princess Margaret

Princess Margaret, the Queen's sister, is engaged to marry Antony Armstrong-Jones, a photographer for the royal court.

The betrothal was announced Feb. 26 at Clarence House, London home of the Princess.

Queen Elizabeth II and her husband, Prince Philip, were said by a spokesman at Buckingham Palace to be "delighted because this is such a happy match."

The Princess and Mr. Armstrong-Jones first met two years ago in London at a party.

"They have met continuously since that time at various places and they have been together at Balmoral and at Sandringham," said the Clarence House press secretary, Maj. John Griffin.

Rule coffee break part of job

A woman in Minneapolis, Minn., who was injured when she slipped on ice while going to a drugstore for a coffee break is entitled to workmen's compensation. The Minnesota Industrial Commission held recently that Mrs. E. R. Sweet should collect \$456 in compensation and \$372 for medical costs.

The firm she worked for claimed she had been on a personal mission at time of her injury. But the commission pointed out that coffee breaks have become accepted on-the-job practices as smoking or going to the washroom. It added that she had to go to the drugstore because the company had no facilities for serving coffee.

Ventriloquism is an ancient art, known to the Greeks, who thought it was the work of demons.

'The Family Doctor'

"BOSSSES WHO BARK IN THE OFFICE — MAY THEMSELVES BE IN THE DOG HOUSE AT HOME."

Editorials

from Canadian Weekly Newspapers

Write an editorial!

(The Mercury, Rodney, Ont.)

Trying to keep this page interesting, informative and concerning local issues is more of a job than you might realize. Because it is a difficult job week after week we are always interested in having editorial subjects suggested by readers. Some interested readers have suggested some very good subjects, which we have used, while others have suggested matters which would be too controversial—ones which would benefit them solely, or subjects which would be "sharpening an axe" for them. No editorial writers want to have anything to do with the latter.

There is always the type of individual with an axe to grind, who does not have the courage of his own conviction to write a letter to the editor and sign his name. He would rather the editor go out on the limb, rather than go on record himself.

We have a case of that on our desk right now. Recently this paper reported Aldborough's reeve, councillors and officials got a pay raise. Saturday's mail brought an anonymous letter in a woman's hand-writing, finding fault with the pay increases and the actions of some officials. Since it is the policy of all newspapers not to publish unsigned letters, this one will not be printed either. The writer realized this, but chose to send her gripes to this office anyway. Realizing it would not be published we cannot understand why she did not send it to the township clerk's office.

Every now and then publishers have merchants come to them asking that an editorial be written on the theme of "shop at home". Certainly every editor is in sympathy, unless it is proposed by a non-advertiser. This is the very situation some weekly newspapermen have found themselves in. There is only one answer and that is "no". Because, here you have a person wanting support who will not try to support himself by advertising his own business and merchandise.

Nearly everyone gets a daily newspaper chuck full of advertisements of city stores. At this time of year sales are on and merchandise is offered at low cost. Nearly everyone has a car and motoring to the city is but a matter of minutes. When city stores advertise their goods in large ads, offering savings, is it any wonder shoppers take the hint and go to these stores? If local non-advertisers would promote their own businesses by advertising the fact that they have a sale and merchandise is reduced in price, there would be no need for them to ask that an editorial be written concerning shopping at home.

Three-way giveaway program

A CITIZEN divided a \$100 contribution among three charities in such a way that the Community Chest received \$7.50 less than four times as much as the Red Cross, and the Red Cross received \$2.50 less than three times as much as the Salvation Army. Later the donor decided to give another \$100, so distributed that the sum of the two amounts received by the Salvation Army would be one-half of the total received by the Red Cross, and one-fifth of the total given to the Community Chest. How was the second \$100 contribution divided?

ANSWERS: Community Chest, \$22.50; Red Cross, \$30; Salvation Army, \$17.50.

A SHORT, TRUE STORY!

When is a price a price? A Co-op Consumer man is wondering.

Behind a cash register in a small store was a card displaying metal wrist-watch bands. The bands were all neatly packaged by their manufacturer, with prices on a small ticket inside the package. The prices varied, some of them being as high as \$15.00.

"Special, while they last, your choice \$2.95," said a sign crudely pencilled and clipped to the display card.

Needing a watch band, the consumer man thought this was just too good to pass up. Quite naturally he selected a band bearing the highest price—\$15.

"You must be losing money selling bands at a price like that," he said sympathetically to the store man as he paid for his purchase.

"Well, I don't know," replied the store man. "Those prices are put in by the factory. I don't know how they expect us to sell the bands for that much. Even at \$2.95 I'm making as much on this one as my conscience will allow!" —The Co-op Consumer.

RAIN WATER

Rain water or melted snow are good for your house plants. Some water softeners in removing the calcium from hard water replace this calcium with sodium. The sodium may be harmful to the plants, so that it's worthwhile taking the trouble to catch some rain or snow.

OTTAWA'S ANNE HEGGTVET, centre, displays the gold medal for Olympic slalom triumph at Squaw Valley. At left is Betsy Snite, U.S., who won the second-place silver medal, while at

right is Barbi Henneberger of Germany, who took down bronze medal for finishing third. Anne won first run while Betsy took the second.

Hainsworth holds all-time shutout record

George Hainsworth, the late goalkeeper of the Montreal Canadiens and Toronto Maple Leafs, holds the all-time National Hockey League record for most shutouts by a goalkeeper during regular scheduled N.H.L. play. Hainsworth registered 94 shutouts during his 10½ seasons in hockey's major circuit.

Hainsworth, who was the winner of the Vezina Trophy the first three seasons it was put up for competition—1926-27, 1927-28 and 1928-29—also holds the record for the most shutouts by a goaltender in one season. He recorded 22 shutouts in 44 games during the 1928-29 season. Hainsworth played with Canadiens from 1926 until 1933. He played with the Maple Leafs from 1933-34 until December of 1936 when he was traded back to Canadiens. He

played a few games for Canadiens during the 1936-37 season and then retired from hockey.

Born in Kitchener, Ont., on June 26, 1895, Hainsworth was one of the smallest N.H.L. goalies standing only five feet, six-inches in height. He was killed in an auto accident near Gravenhurst, Ont., on Thanksgiving Day, 1950.

Terry Sawchuk of the Detroit Red Wings has more shutouts than any goalie active in the N.H.L. today. Sawchuk has recorded 81 shutouts during regular scheduled play. His 81st was against Montreal March 8th when Detroit won 3-0. He is tied with Tiny Thompson and Alex Connell who both chalked up 81 shutouts during their National League careers. Thompson played 12 seasons in the League while Connell played 11 seasons. Sawchuk is currently in his 10th N.H.L. season.

Sawchuk has won the Vezina Trophy three times. Thompson won it four times while Connell failed to win the goalkeeper's top individual award once.

The late Lorne Chabot registered 72 shutouts during his National Hockey League career. Harry Lumley of the Boston Bruins had 71 "goose-eggs" in games up to February 27. Roy Worters registered 67 during his career. Other high men were John Ross Roach, 58; Clint Benedict, 57; and Dave Kerr, 50.

Jacques Plante of Canadiens and Glenn Hall of Chicago have 46 and 29 shutouts respectively. Of the former goalies mentioned—Hainsworth, Connell, Chabot and Worters are now deceased.

All of these records are for regular scheduled championship games. No playoff records are included.

HORVATH SCORES MORE THAN HALF HIS GOALS FROM POWER PLAY

Boston Bruins' sharp-shooting centre, Bronco Horvath, National Hockey League goal scoring leader, scored more than half of his goals while playing on Boston's power play. Horvath scored 20 of his 37 goals when the Bruins held a manpower advantage.

Two members of the Montreal Canadiens—Jean Beliveau and Dickie Moore—scored the next most goals as a result of the power play. Beliveau scored 11 of his 32 goals while performing on Montreal's famed power play. Moore tallied 10 of his 20 goals as a result of the power play.

The above marks are for the first 175 games of the 1959-60 season and include games up to and including those of Sunday, February 21.

TWO OF SIX N.H.L. COACHES ARE FROM WINNIPEG

Two of the six National Hockey League coaches this season hail from Winnipeg, Man. This city which at one time was the most prolific producer of puck talent anywhere was the birthplace of Rudy Pilous of Chicago and Alf Pike of New York.

Half of the six N.H.L. coaches this season are from Western Canada originally, with the other three coming from Ontario. Sid Abel of Detroit was born at Melville, Sask., rounding out the three from the West. Punch Imlach of Toronto is a native of the city he coaches. Toe Blake was born at Victoria Mines, Ont., which is close by Sudbury, and Milt Schmidt of Boston was born and raised at Kitchener, Ont.

BRUINS ROAST BEST POWER PLAY

Boston Bruins have the best power play in the N.H.L. even better than the leading Montreal Canadiens. The Bruins scored 44 of their 192 goals scored in games up to and including those of February 21 as a result of the power play. This means the Bruins scored 23 percent of their goals from the power play.

Montreal Canadiens scored 48 goals through the power play out of the 218 total they scored, which works out to 22 percent of their goals coming via the extra man edge. New York Rangers notched 30 goals from the power play. Thirty goals out of 159 scored gives them a percentage of 19 through the power play.

Detroit scored 28 off the power play or 18 percent of their total goals scored of 157. Toronto scored 25 goals out of 162 via this method and Chicago tallied 24 out of 164 scored this way. Both Toronto and Chicago scored 15 percent of their goals from the power play.

SEVEN OF TOP LEADERS FROM ONTARIO

Seven of the leading 20 point-getters in the National Hockey League this season hail from the Province of Ontario. Six of the top 20 are from Quebec Province. The seven who were born in Ontario and learned their hockey in that province are Bronco Horvath, Boston; and Bobby Hull, Chicago; the two leading point-producers this season; Don McKenney, Boston; Dean Prentice, Rangers; Bob Pulford, Toronto; George Armstrong, Toronto; and Jerry Toppazzini, Boston.

All six of the players from Quebec are members of the Stanley Cup champion Montreal Canadiens. The six Canadiens among the league's major producers are Jean Beliveau, Henri Richard, Bernie Geoffrion, Dickie Moore, Marcel Bonin and Claude Provost.

Three of the 20 leading point-getters are from Saskatchewan, namely Gordie Howe, Detroit; Bill (Red) Hay, Chicago; and Gary Aldcorn, Detroit. Three are from Alberta and one from Manitoba. The trio from Alberta are Vic Stasiuk, Boston; Johnny Bucyk, Boston; and Norm Ullman, Detroit. Andy Bathgate of New York Rangers is the lone Manitoba representative.

SOME GOOD ALL-STAR TEAMS FROM PROVINCES

The Province of Quebec could ice a pretty formidable hockey club. In fact it would be a team that could be rated as an All-Star aggregation. All of the players on the team are those who were born in Quebec. The Quebec team would line up as follows: Goal, Jacques Plante, Canadiens; Defence, Doug Harvey, Canadiens; Marcel Pronovost, Detroit; Pierre Pilote, Chicago; and Dollard St. Laurent, Chicago; Centre, Jean Beliveau and Henri Richard, both of Canadiens; Right Wing, Bernie Geoffrion and Maurice Richard, both of Canadiens; Left Wing, Dickie Moore and Marcel Bonin, also both of Canadiens. All but Pronovost, Pilote and St. Laurent are current members of the Montreal Canadiens.

Saskatchewan could line up a team that would hold its own with the best of teams. The Wheat Province of Canada is particularly strong in goal with two of the six N.H.L. netminders hailing from there, Glenn Hall, Chicago; and Johnny Bower, Toronto; would take care of the goalkeeping duties. Fern Flaman, Boston; Bob Baun, Toronto; and Bob Turner, Canadiens; are the de-

fencemen. The forwards would be as follows: Centre, Bill (Red) Hay, Chicago; and Larry Popein, Rangers; Right Wing, Gordie Howe, Detroit; and Ed Litzenberger, Chicago; Left Wing, Bert Olmstead, Toronto; and Gary Aldcorn, Detroit.

Ontario has more people than any other province in Canada and a good hockey climate and therefore has more players in the National Hockey League than any other province. While the Ontario All-Stars are a pretty fair outfit, they would have their work cut out for them against Quebec and Saskatchewan. Here is how the Ontario team shapes up: Goal, Harry Lumley and Don Simmons, both of Boston; Defence, Allan Stanley, Toronto;

Bob Armstrong, Boston; Leo Boivin, Boston; and Red Kelly, Toronto; Centre, Bronco Horvath and Don McKenney, both of Boston Bruins; Right Wing, Jerry Toppazzini and Leo LaBine, both of Boston; Left Wing, Bobby Hull, Chicago; and Dean Prentice, Rangers.

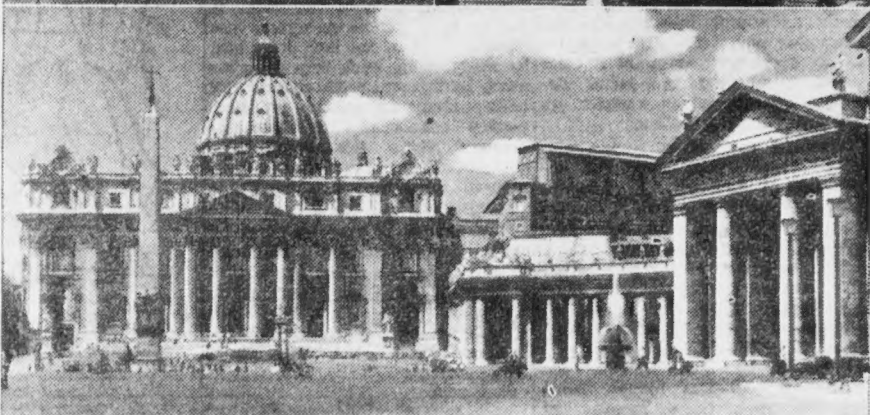

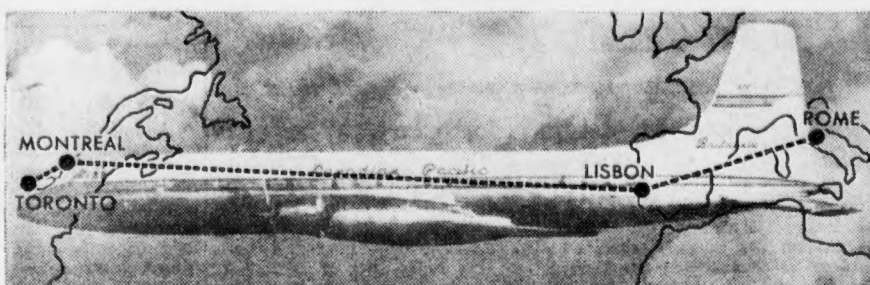

These mythical teams do not by any means take care of all the fine players from the above mentioned provinces, but it does give you an idea of how the various provinces shape up as incubators of National Hockey League talent.

THREE TOP SCORERS SHOOT LEFT

The three leading scorers in the National Hockey League are left-hand shots.

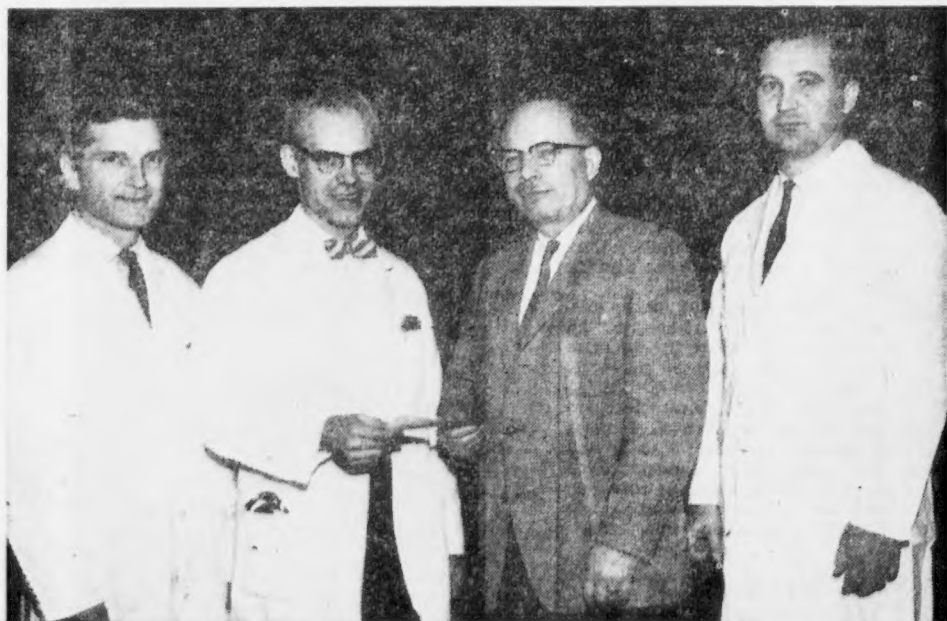

Thirteen of the leading 20 point-getters in the League propel the puck into the net from the left side. Other left-hand shots besides Horvath, Hull and Beliveau are Vic Stasiuk, Boston; Don McKenney, Boston; Dickie Moore, Canadiens; Dean Prentice, Rangers; Johnny Bucyk, Boston; Norm Ullman, Detroit; Bob Pulford, Toronto; Gary Aldcorn, Detroit; Marcel Bonin, Canadiens; and Bill (Red) Hay, Chicago.

Representing the right-hand shots among the top 20 are such luminaries as Gordie Howe, Detroit; Henri Richard, Canadiens; Bernie Geoffrion, Canadiens; Andy Bathgate, Rangers; Bob Armstrong, Boston; Marcel Pronovost, Detroit; and Jerry Toppazzini, Boston.

NEW ROAD TO ROME—First all-Canadian air service from Canada to Rome will be inaugurated March 4 by Canadian Pacific Airlines' jet-prop Britannias flying the direct, sunny, southern route from Toronto-Montreal to Rome. The Eternal City has more than ever to offer the tourist in 1960 as it is the site of the Olympic Games. However, there is more than athletic displays to lure the tourist to Rome. A few examples are: (centre left) The Arch of Titus, erected to commemorate the victory of Titus over Jerusalem in 70 A.D., and behind it the Colosseum, finished in 80 A.D., a vast arena which could hold 50,000 spectators. They are the two most important monuments remaining from the era of the Flavian emperors. (Centre right) the famed Spanish Steps, one of the most characteristic and romantic spots in Rome. They were built in 1725. (Bottom) St. Peter's in the Vatican is the largest of Christian churches. Begun in 1506, it was finished 120 years later. Michelangelo designed the tremendous dome. The Basilica and adjoining Vatican house many art masterpieces.

LARGE GIFT—A gift of \$18,500 for various medical research projects has been made to the University of Saskatchewan in Saskatoon by the Saskatchewan Heart Foundation. G. G. Patrick, of Saskatoon, treasurer of the Foundation, presented the cheque to the university. Left to right are Dr. R. E. Grindeland, assistant professor of physiology, Dr. J. E. Merriman, assistant professor of medicine, Mr. Patrick, and Dr. Borden Kitchen, a research fellow in the College of Medicine. Of the \$18,500 the Department of Medicine in the College of Medicine receives \$8,500. The Department of Surgery gets \$4,000 and the Departments of Anatomy and Physiology receive \$3,000 each.

—U. of S. photo.

Moments apart

By Rev. E. L. Bishop
Temptation

The duration of Lent is modelled on the forty days of fasting in the wilderness which immediately preceded our Lord's public ministry, during which time he faced and overcame the temptation to take an easy course to achieve the hard goal he had in view.

It is natural then that we should turn to the record of Jesus' struggle with temptation to illumine and deepen our own spiritual experience through Lent.

There is a disposition abroad nowadays to make a joke out of the subject of temptation. At least one popular song, and more than one product of the cosmetic industry, go by the name. Somebody says: "I can resist anything but temptation," and the phrase becomes a popular refrain.

It is characteristic of the Bible that it takes the subject of temptation as a very serious thing, which in fact it is. And nowhere is it dealt with more seriously than in the Gospel records of our Lord's wilderness temptations.

What were those temptations? the first coming to Him when He was weak and hungered from fasting, was the frontal attack of physical appetite. "If thou be the Son of God," said the Tempter, "command that these stones be turned into bread."

Only those who have been famished with hunger—which means few of us in this land of surplus food—can pretend that we know the power of that temptation. But it had an even greater significance for Christ than it would have for a starving man. Our Lord was faced not only with His own hunger, but with the hunger of multitudes to whom He would speak. Would it not be easy to win them by using His divine powers to feed them? But the answer was immediately given: "No! Man does not live by bread alone, but by the spiritual sustenance that comes only from God." To give the former without the latter is to give nothing.

The second temptation was similar, yet not so obvious. Why not put God's care and protection, which Christ claimed as His due, to a dramatic and public demonstration? The crowds would flock to follow Him if they could see Him survive an impossible leap from the pinnacle of the temple. Christ's answer again was clear. Yes, but what right did He or anyone have to put God to the test this way? And how much good could the fickle following of a wonder-worker do? The love of God would have to be proven more patiently and more surely.

Finally, why not make a quick grasp of the political and material power that the world understood, and use it to achieve His ends? Because, said Jesus, to do that would be to acknowledge the sovereignty of evil over good, and the subservience of God to the Devil. Anything that implied this He would always repel.

His victory in this gives both the model and the strength for ours.

Every advantage has its disadvantage. —Latin proverb

Now Many Wear FALSE TEETH With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTTEETH on your plates. No gummy, goosy, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTTEETH at any drug counter.

When they are troubled by backache, that tired out feeling or disturbed rest, many, many women turn to Dodd's Kidney Pills. These conditions can be caused by excess acids and wastes in the system and Dodd's Kidney Pills stimulate the kidneys and aid their normal action of removing these excess acids and wastes. Then life seems brighter, housework lighter! Why don't you, too, try Dodd's!

Opposes coloring of margarine

The Manitoba Federation of Agriculture strongly disagrees with Dean Wainwright's contention that the factory coloring of margarine will not appreciably affect its sales in competition with butter. The terrific amount of money and effort which has been spent by the few margarine manufacturers to create a public demand for the factory coloring of margarine indicates they feel sales will increase and that they will benefit.

We are concerned about the economic consequences which would follow the adoption of the commission's recommendation at this time. Loss of income to butter producers would be substantial, and these losses would come at a time when agriculture is already in serious economic difficulty. These losses would be reflected in reduced income to all Manitoba, because the major portion of the raw materials used in margarine manufacture must be

Teetotalers may get gout

At last the happy truth is out—Port Wine is NOT the cause of gout; Far more responsible for pain Are kidneys, liver, sweetbreads, brain; The Clubman should by any means Avoid anchovies and sardines, And citizens of every sort Owe some apology to port.

—A. P. Herbert

imported, whereas butter exports from Manitoba now account for over \$6,500,000 revenue to Manitoba residents.

Margarine can now be purchased for those who desire a cheap spread. We see nothing which would justify the report's adoption at this time. (MFA News Release).

During the 18th century, the social standing of a noble was reckoned by the number and richness of his snuff boxes.

GOOD? -- OLD DAYS

Swan River, Man. — For the benefit of those readers of the Star and Times who are prone to look too favorably on the "Good" old days, we pass on this account of an office memo, circa 1870's. It is taken from "Teamwork In Industry" and came to us by way of the "Farm and Ranch Review".

"Office employees each day will fill lamps, clean chimneys and trim wicks. Wash windows once a week.

"Each clerk will bring in a bucket of water and a scuttle of coal for the day's business.

"Make your pens carefully. You may whittle nibs to your individual taste.

"Men employees will be given an evening off each week for courting, or two evenings a week if they go regularly to church.

"After 13 hours of labour in the office, the employee should spend the remaining time reading good books.

"Every employee should lay aside from each pay a goodly sum of his earnings for the benefit of his declining years so that he will not become a burden on society.

"Any employee who smokes Spanish cigars, uses liquor in any form, or frequents pool and public halls or gets shaved in a barber shop, will give good reason to suspect his worth, intentions, integ-

rity and honesty.

"The employee who has performed his labours faithfully and without fault for five years will be given an increase of five cents per day in pay, provided profits from business permit." The Star and Times.

Westerners planning trip to Churchill

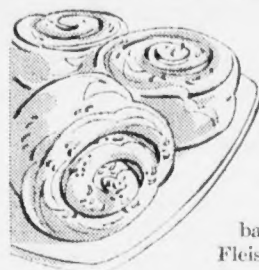

CNR officials report that a large number of advance reservations have been received for its special excursion trip from Saskatoon to Churchill, being operated this year in co-operation with the Hudson Bay Route Association.

Train departure from Saskatoon has been advanced one week and it will now leave on Friday, July 29, instead of August 4.

The full seven-day program features stopovers at Canora, The Pas, Flin Flon, Cranberry Portage, the fabulous new mining centre of Thompson and other northern centres.

Itch..Itch...I Was Nearly Crazy

Very first use of soothing, cooling liquid D. D. D. Prescription positively relieves raw red itch—caused by eczema, rashes, scalp irritation, chafing—other itchy troubles. Greaseless, stainless. 30¢ trial bottle must satisfy or money back. Don't suffer. Ask your druggist for D. D. D. PRESCRIPTION

Iresistible!

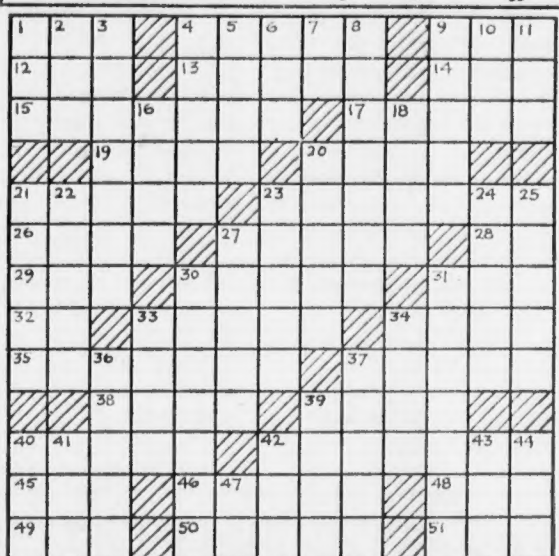

Rich, fudgy filling and topping with bits of coconut right through. When you bake at home always use Fleischmann's Active Dry Yeast.

COCONUT-BUTTERSCOTCH BUNS

1. Scald $\frac{3}{4}$ c. milk
Stir in $\frac{1}{2}$ c. lightly-packed brown sugar
 $1\frac{1}{2}$ tps. salt
 $\frac{1}{4}$ tsp. baking soda
 $\frac{1}{4}$ c. butter or Blue Bonnet Margarine
Cool to lukewarm.
2. Measure into large bowl $\frac{1}{2}$ c. lukewarm water
Stir in 1 tsp. granulated sugar
Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast
Let stand 10 mins., THEN stir well.
Stir in lukewarm milk mixture, 2 well-beaten eggs
 $2\frac{1}{2}$ c. once-sifted all-purpose flour
Beat until smooth and elastic. Work in an additional 2 c. (about) once-sifted all-purpose flour
3. Turn out on floured board; knead until smooth and elastic. Place in greased bowl. Grease top. Cover. Let rise in warm place, free from draft, until doubled in bulk—about $1\frac{1}{4}$ hrs.
4. Combine $\frac{1}{2}$ c. soft butter or margarine
 $1\frac{1}{2}$ c. lightly-packed brown sugar
 $\frac{1}{2}$ tsp. vanilla
 $\frac{1}{4}$ c. cream
 $\frac{1}{4}$ c. cut-up shredded coconut
5. Punch down dough. Knead on floured board until smooth. Cut into 2 equal portions. Roll into two 12" squares. Spread with coconut mixture. Roll up, jelly-roll fashion, and cut each roll into 9 slices. Place in 2 greased 8" square pans, a cut side up. Grease tops. Cover. Let rise until doubled—about $\frac{3}{4}$ hr. Bake in mod. oven, 350°, 25 to 30 mins. Yield: 1½ dozen buns.

GREEN ACRES

By S. W. PETTEM, Dist. Ag.

FREE TREES

A limited supply of a few varieties of trees, such as Colorado Spruce, White Spruce, Manitoba Maple, Green Ash, American Elm, Russian Olive, Red Elder, Hungarian and Common Lilac are still available. These trees are free to farmers only charge being the express. Application may be made with either the Field Supervisor or through this office.

BETZES BARLEY

A license was issued for the barley variety Betzes on March 3, 1960, as a result of an application by the Research Station at Lethbridge, reports S. A. Wells, Cerealist at the Station. This variety was introduced from Krakow, Poland, in 1938 by the United States Department of Agriculture. It was released for commercial production in the United States in 1957 and is being grown in Montana and Idaho.

Betzes is a two-rowed, rough awned variety with rather short, moderately strong straw.

In co-operative tests throughout Canada over a four year period it averaged approximately 14 percent higher in yield than Hannchen. In 49 tests in southern Alberta and southwestern Saskatchewan in 1958 and 1959, Betzes averaged 36.7 bushels per acre and Compana 34.3 bushels per acre. Betzes is shorter than Hannchen and is more resistant to lodging than Hannchen or Compana. Betzes has been classed as equal to Hannchen in malting quality and will consequently be eligible for the top C.W. 2-row grades. It is definitely superior to Compana in pearling quality. It is well known that the pearling quality of Compana was never considered satisfactory for the export market to Japan. This may account in part for the virtual loss of this market. It is possible that there may be some demand in the future for Betzes for this market. Betzes is rather susceptible to shattering and serious losses may be suffered if the crop is left standing too long after maturity.

DON'T BURN STUBBLE

The removal of straw from a 45 acre field is equivalent to removing approximately as much nitrogen as would be contained in a ton of ammonium nitrate costing about \$90., says A. W. Goettel, Alberta's Assistant Supervisor of Soils and Weed Control. While hand-

ling heavy straw and stubble may present quite a problem, he urges farmers to take full advantage of all the benefits to be gained from proper utilization of trash cover. Where straw is heavy, he suggests that the application of a fertilizer such as ammonium nitrate, broadcast at the rate of 70 to 100 lbs. per acre before seeding, will forestall temporary yield depression and produce much better crops.

Beiseker

The Beiseker Ladies Curling Club brought to a close their very enjoyable curling season when 22 members sat down to a delicious turkey dinner on Monday March 22nd in the curling rink. The business meeting was followed by the election of officers for the coming winter season. Re-elected by acclamation were the following President.....Elsie Martin Vice-Pres.....Ruby Reddekopp Treasurer.....Berty Martin Secretary Ann Troidl (elected) Councillors—Jennie Schmaltz, Evelyn Schmaltz Barbara Olsen, Veronica Smith. Prize Committee — Mary Simmonds and Patsy Tetz.

Bingo was enjoyed afterwards and the door prize was won by Mary Simmonds.

Mr. and Mrs. John Frere, Miss Annie Muchka, Mr. Dominic Mathieu, all of Trochu and Mr. and Mrs. Jim Lawson and Mr. and Mrs. Clark Watson of Calgary, Mr. and Mrs. Pat Patterson and Mr. Murray Murdoch of Irricana were guests last Sunday at the home of Mr. and Mrs. Leo Schmaltz, with Mr. and Mrs. Felix and Mr. and Mrs. Peter Schmaltz as co-hosts. The men enjoyed a friendly game of curling in the Irricana Curling Rink after which a delicious turkey dinner was served by Eleanor, Lauretta, Maxine and Hilda.

Mrs. Anton Sander is spending a month in Trail, B.C. visiting with her son Wendel and family who recently became the proud parents of twins, a boy and a girl. Congratulations Mr. and Mrs. Wendel Sander.

The Knights of Columbus, Beiseker Council received Communion in a body on Sunday and afterwards were served a Brunch by the C.W.L. in the Memorial Hall. The guest speaker was Rev. Father James Hagel of Drumheller who conducted services in St. Mary's Parish from Saturday to Wednesday in the absence of Rev. Fr. Tennant who was the guest preacher at a 40 hour devotion in Drumheller.

A 29 cribbage hand was held

Sunday in a friendly game with Jack Thorsen both of the Royal Bank staff. As Doug is a new cribbage fan he was extremely pleased with the very seldom achieved 29.

The annual meeting of the Catholic Women's League Beiseker Council was held Thursday March 31st. The following slate of officers was elected: President Mrs Baltser Schmaltz 1st Vice-Pres. Mrs. Stan Olsen 2 Vice-Pres. Mrs. Irene Hagel 3rd Vice-Pres. Elaine Bunyan Secretary Mrs. Tony Schmaltz Treasurer.....Mrs. Ruby Hagel Councillors—Miss Chris Veiker, Mrs. J. J. Hagel, Mrs. Harry Simmonds, Mrs. H. Neubauer, Mrs. Otto Tetz, Mrs. Erna Meidinger, Mrs. Mike Stinn, Mrs. Jos. Bosch.

A Beiseker Lions Club rink skipped by Roy Berreth with L. L. Schmaltz third, Alvin Rutherford second and Clarence Metzger lead won the Jim Hammill Trophy in the District Curling Competition of the Lions Clubs for Central Alta. Fifty-two rinks competed and provided some very sharp competition. Congratulations to you Lions.

At the last bi monthly supper meeting of the Lions Club the following were presented with framed certificates by Dis-

PONTIAC...THE "SIX" THAT EATS UP MILES...DESIGN THAT BEATS ALL STYLES

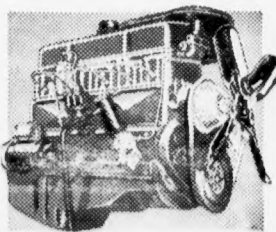

Pontiac's famous valve-in-head 150 hp Strato-Six engine is designed for greater gasoline efficiency and easier servicing...you save money and you do it in style!

Get on the open road with the year's most outstanding performer! Now's the time to become a partner, not just an admirer of Pontiac's fresh new look of perfection. Its award-winning looks are so in keeping with your particular way of life. Thrill to the dashing spirit of Pontiac's new Strato-Six power...efficient, capable power that takes you and five very impressed passengers

(and their luggage) anywhere—everywhere—with the ease of an Eight! Thrifty? You bet! With regular gas you save from the start. Dependable? And how! Pontiac's superb Strato-Six is designed for long-life, ease and economy. And if you want an "eight," Pontiac has four to choose from. Start a beautiful partnership by seeing your dealer, soon!

The International Fashion Council, leading fashion authority representing 31 nations, recently presented this Award for Outstanding Design to the 1960 Pontiac.

Pontiac's top-performing Strato-Six is one of the most modern sixes in the industry. It combines many high quality features not available in any comparable engine. Valve-in-Head design improves performance while keeping engine cooler and valve servicing simpler. And the Strato-Six's specially designed carburetor gives more miles per gallon than ever before.

Prince Philip to visit Canada

Prince Philip is scheduled to arrive in Ottawa by air in the late afternoon of June 7 before spending two days in Toronto.

Officials said his engagements here will be light.

They said he presumably will dine at Government House with the Governor General and Mrs. Vanier, spend the night there and then leave early the next day for Toronto and the two-day discussion preparatory to the Commonwealth Industrial Studies conference in Canada in 1962.

The Weeklies Say

SANITATION

There's too much sanitation. What could be more appalling to a real cheese lover than the cellophane-wrapped pasty atrocities now on the shelves of our grocery shops. To deserve the name, cheese in fact must be hewn off the block, rich, solid, tangy and aromatic. — Hartland (N.B.) Observer.

* * *

RIGHT TO BEARD

We're on the side of the Boston man who refused to remove his

beard. His firm may think he looks like a beatnik and yet Longfellow, another New Englander, was no cool cat. All men everywhere who like beards are entitled to wear them. — St. Croix (N.B.) Courier.

* * *

LACK OF BENEFITS

The idea of succession of the Atlantic Provinces deserves more than a passing thought. We pay more for what we buy in Upper Canada and it costs us more to sell in the Upper Canadian market. Meanwhile the St. Lawrence Seaway is causing us additional concern. Too long have our people been hanging by a single thread to Confederation without reaping the benefits which should be ours. — Springhill (N.S.) Record.

* * *

GRIME NEVER PAYS

Driving with windows obscured by dirt is an inexcusable piece of carelessness that can easily lead to an accident, particularly at night. Grime never pays . . . on car windows. — Trenton (Ont.) Courier-Advocate.

* * *

DANGEROUS TRICK

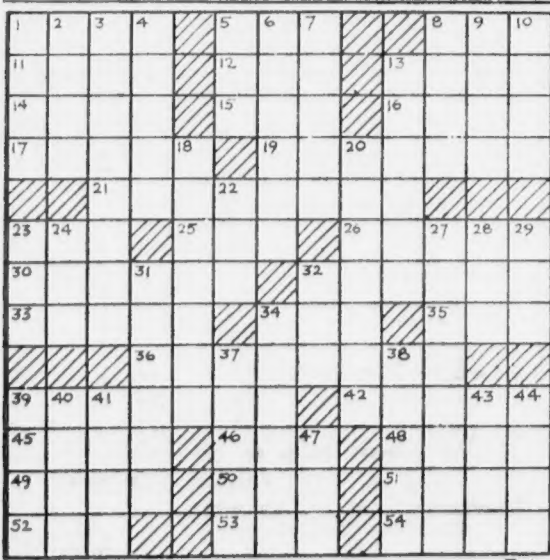

Youngsters must surely realize they are flirting with death every moment they cling to a moving vehicle . . . This is an appeal to their good judgment to stop this dangerous practice before it's too late. — Grenfell (Sask.) Sun.

FOLLOW THE CENSUS TAKER?

Detailed as his map of the area may be, the census taker appears perplexed at the best route for him to follow in visiting a pair of dwellings on his list of calls. These two homes are not accessible via direct paths. Instead a number of twists and turns and seemingly roundabout trails must be traversed in order to reach them. Can you trace the census taker's steps to the sites indicated? He visits home number one first; then home two; and returns to his starting point. Arrows indicate start and finish of journey. Naturally, when a dead end is reached it means retracing steps—something the weary count-taker wishes to avoid. All usable paths are indicated; it is against the rules to cross heavy lines.

Woman's Way

MADELINE LEVASON

RACKETEERING LADIES

A secret little racket is flourishing among housewives in at least one part of Canada, as a result of the hubbub over trading stamps. What Husband doesn't know won't hurt him, is the attitude of the racketeers.

The Canadian Association of Consumers, with its battle-cry "Stamp Out Stamps," isn't getting much support from these housewives, although its protest created the opportunity for their gimmick.

It was in response to CAC protests that a large Quebec chain store offered to redeem its trading stamps for groceries instead of premiums. Then, the wily Quebec housewives saw their opportunity.

They counted up the stamps they had been saving for toys, trinkets or "something for the house"; marched off to the store and turned the stamps in on food items and pocketed the regular grocery money for their own purposes.

The practice is apparently spreading like wildfire. Those slow to realize the possibilities are being quickly educated by sharper neighbors showing off new dresses, hats, shoes and other items of feminine finery purchased with the grocery money.

Of course, the secrecy gives an additional thrill to the harmless little racket. Husband, who generally regards the whole stamp business as idiotic, can go right on ridiculing the little woman for her careful counting and picking of stamps after every trip to the store. The little woman doesn't mind at all. She'll keep it up just as long as she can get away with it all.

We can be sure that if trading stamps are wiped out, it will take the joy out of a lot of grocery shopping in Quebec.

New well

Milton, Ont. Tony Seynuck has landed another gas well.

This one came in on the Lloyd Marchmont farm south of Highway 401, east of Hornby. Estimated flow is 250,000 cubic feet a day, and it was drilled to a depth of 1,700 feet.

Mr. Seynuck, president of Anthony Gas and Oil Explorations Co. of Acton, has leased 5,000 acres in Trafalgar and Esquew and hopes to bring in more wells. Recently another well was opened on the farm of MPP Stan Hall—The Canadian Champion.

WITH NEARLY \$500,000 coming in from a brother who died recently, Henry Marshall of Carleton Place, Ont., finds even more enjoyment as he lights a favorite cigar to celebrate the news. But "every cent will be put to good use," he stresses. Marshall, 80, will get money left by older brother William R. Marshall, a Washington, D.C., real estate broker who died February 5.

Plaster on P.O. walls put on by sprayer

Work on the new Federal building in Goderich, Ont., is proceeding rapidly and it is expected it will be ready for occupancy by June. About 65 percent of the work on it is already completed, it is stated by the foreman in charge of construction. Only nine hours of lost time has been met with so far and this was due to inclement weather.

Plastering of the walls was being done. This was accomplished by a spraying machine, the only one of its kind in Western Ontario. No hod carrying is done. The plaster is piped in and sprayed on the walls like paint. The Signal-Star, Goderich, Ont.

MANITOBA ANGLERS, BE PREPARED! SEASON OPENS MAY 14

It's not too early for Manitoba anglers to start oiling up the reels and testing the rods because the fish are waiting and the summer season starts on Saturday, May 14.

There are no major changes in the angling regulations this year from the regulations of 1959. The minimum size limits, creel limits and possession limits are unchanged.

NO MORE TATTOOS SERVICEMEN TOLD

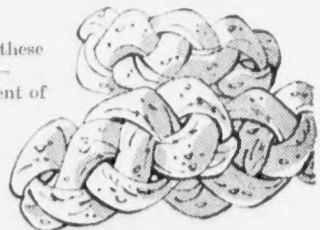

The U.S. Army has placed tattoo parlors off limits for servicemen in Ft. Rucker, Ala., at the recommendations of Col. Charles C. Canada, surgeon in charge of the Ft. Rucker Hospital. He said tattoos adversely affected the health, welfare and morals of most who get them.

DRIVE AND WALK SAFELY

LONG DISTANCE IS *Cheaper* THAN YOU THINK ... use it often

Scrumptious! Different!

If you bake at home, try these tender, puffy braided rolls—with the sophisticated accent of toasted seeds. Try them soon! And for finest results always use Fleischmann's Active Dry Yeast.

RICH SEED BRAIDS

1. Scald 1/2 c. milk Cool to lukewarm.
2. Meantime, measure into small bowl 1/2 c. lukewarm water Stir in 1 tsp. granulated sugar Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast Let stand 10 mins. THEN stir well.
3. Cream 1/2 c. butter or Blue Bonnet Margarine Gradually blend in 1/2 c. granulated sugar 1 1/2 tps. salt Add and beat in, one at a time, 2 eggs 1 egg white Stir in dissolved yeast, lukewarm milk and 2 c. once-sifted all-purpose flour Beat until smooth and elastic. Work in an additional 2 1/2 c. (about) once-sifted all-purpose flour
4. Turn out on floured board; knead until smooth and

elastic. Place in greased bowl. Grease top. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 1/4 hrs.

5. Punch down dough. Turn out on floured board; knead until smooth. Divide into 2 equal portions. Shape into rolls 9" long; cut into 9 slices. Divide each slice into 3 pieces; roll each piece into a 5" rope. Braid 3 ropes together to make each bun; seal ends. Arrange, well apart, on greased cookie sheets. Grease tops. Cover with towel. Let rise until doubled—about 40 mins. Brush with a mixture of 1 egg yolk and 1 tbsp. water; sprinkle with caraway, poppy or sesame seeds. Bake in mod. hot oven, 375°, 12 to 15 mins. Yield: 1 1/2 dozen braids.

trict Deputy Governor Mr. Charley County of Rockyford. "15 year Charter members" W. J. Lavoie, Charlie Lohrke, C. E. Schmaltz, L. J. Schmaltz, J. H. Schmaltz, L. L. Schmaltz, Matt Schmaltz, Val Schmaltz, Adam Velker, Carl Lohrke. "15 year old Monarchs", Fred Meidinger, D. B. Olsen, J. G. Schissel, "10 year old Monarchs", Arthur Berreth, Roy Berreth, Lorne Bunyan, C. G. Metzger, N. F. Schmaltz, Ed Schwarzenberger, Frank Selzler.

Mr. Roger Meidinger left on Sunday past and Mr. Jim (E.B.) Hagel will leave Sunday April 3rd by air for Montreal where both have been temporarily transferred to the Main Branch of the Royal Bank of Canada to study and learn the stock and bond business. Two young men were chosen from the Province of Alberta and it was the good fortune of two Beiseker boys to receive this promotion. We sincerely congratulate the boys and wish them a successful and pleasant stay in Montreal.

BEISEKER SCHOOL HI-LITES

LITERATURE VIII

"To school we go each morning Joe, Jim and Bob
To get an education
And a money-making job.
"Mrs. Harris teaches literature
In the grade eight class,
Narratives and free verse
So that we will pass.
"Mrs. Derr teaches language
Structural grammar too,
She teaches us so thoroughly
We know it through and

through.
"Mr. Dvorak teaches science
A subject of all things
He favors dogs and outer space
And even likes to sing.
"Mr. Bunyan we admire,
The principal of our school
Leads out in sports and Phys.
Ed. too,
And lives the Golden Rule."
Verlin Rau,
Judith Reich,
Gail Poffenroth.

"The Little Red Schoolhouse", a play directed by Mr. Dvorak was presented on the afternoon of Friday March 18. It was a delightful comedy and enjoyed by all. Both Mr. Dvorak and his Grade Eights deserve much credit for the cast was picked well and the acting was superb. Congratulations to the actors, actresses and their director!

During the month of February, the Grade 7 class had a competitive study competition. Roger Litke won the honor award for achieving the highest marks. Kathleen Selzler won the effort award for competing against her own marks. Both students were presented with books.

A library for the school is now being developed primarily by the Grade Eleven Class under the supervision of Mr. Bunyan. All of the students are enjoying their chance to work with the books. They are also broadening their knowledge of libraries and their function.

The library work, being done by the Grade Eleven students, under the supervision of Mr. Bunyan is progressing excellently. This library is to serve the students and teachers only. The teachers will supervise the students on the borrowing and use of books.

In this library is a reference

plus a fiction section; many new books are being bought to supplement the supply of old ones.

The students are doing all the work and are deriving knowledge as well as pleasure from the project.

Also under way this present week, Mar. 28 to April 1 are the Easter Exams. Consequently all sports have slowed down. Practises are being held though no games are slated.

The Junior High has also been studying hard and practising their sports.

On Saturday Mar. 28, however, a surprise farewell party for Judy Reich was held at the home of Sheila Schissel with Sheila as hostess. Judy received a lovely gift from her girl classmates. It was attended by about 20 girls.

—Pat Topal.

ACME

Mrs. Lorna Gali, President of the Rebekah Assembly of Alberta and Miss Lena Loewen, Marshal were guests at a banquet on the occasion of the 53rd Anniversary of Esther Rebekah Lodge No. 1, Calgary. A Tableau entitled, "The Building of the Temple of Oddfellowship" was exemplified in honor of the President's visit.

The Ladies Bridge Club met at the home of Peggy Hay on Thursday evening March 31st. High score was held by Madeline Benson with second going to Dorothy Leigh. The next bridge will be held at the home

Department of Public Works, OTTAWA TENDERS

SEALED TENDERS addressed to Secretary, Department of Public Works, Ottawa and endorsed "TENDER FOR THREE BEDROOM STAFF UNIT, BLACKFOOT INDIAN RESERVE, GLEICHEN (OLD SUN), ALBERTA". will be received until 3.00 P.M. (E. D. S.T.), WEDNESDAY, APRIL 27, 1960.

Plans, specifications and forms of tender can be seen or can be obtained on deposit of sum of \$25.00 in the form of a CERTIFIED bank cheque to the order of the RECEIVER GENERAL OF CANADA, through: Chief Architect, Hunter Building, Ottawa, Ont.; Regional Director, Oliver Building, P.O. Box 488, Edmonton, Alta., and can be seen at the Post Offices at Calgary, Drumheller, and Gleichen, Alta.

The deposit will be released on return of the documents in good condition within a month from the date of reception of tenders. If not returned within that period the deposit will be forfeited.

To be considered each tender must—

(a) be accompanied by one of the alternative securities called for in the tender documents.
(b) be made on the printed forms supplied by the Department and in accordance with the conditions set forth therein. The lowest or any tender not necessarily accepted.

ROBERT FORTIER,
Chief of Administrative
Services and Secretary

of Violet Lavoie on Wednesday April 20th.

Jim Ellis was a guest of honor at the Olds Fish and Game Association meeting on Thursday March 24 when he was invited to put on a display with his Labrador Retrievers.

There was a large and appreciative audience in attendance at the most enjoyable program presented in Acme Memorial Hall Wed. March 30th, when the following program was presented:

The evening opened with O Canada and Murray Brown acted as Master of Ceremonies.

1. Ladies Chorus, "Grand Nite for Singing."
2. Novelty Number by Jack Welsford and Ralph McCall.
3. Reading by Mrs. D. Prowse of Carbon.
4. Barber Shop Chorus, "I Had a Dream Dear."
5. Piano Solo by Trudy Welsford, "In a Monastery Garden."
6. Playette, "Bargain Cure."
7. Pantomime by Larry Ohlhauser of Carbon.

8. Barber Shop Medley, "Girl of My Dreams and "Marge."
9. Novelty Reading by Doreen Wheeler.
10. Ladies Chorus, "O What a Beautiful Morning."
11. Reading by Mrs. Prowse.
12. Pantomime by Larry Ohlhauser.
13. Comedy Vocal Duet by Mr. and Mrs. Welsford, "Anything You Can Do I Can Do Better."
14. Barber Shop Chorus "Good Nite."

The Queen concluded a memorable evening. The excellent program presented was a credit to Mrs. Mary Ellis and all the artists.

MRS. ANNIE PAMBRUN

Mrs. Annie Pambrun was born at Fort Macleod in 1881. She moved to Battleford, Sask. at an early age and resided there until after her marriage to Peter Pambrun in 1909, later moving to Acme where she resided until 1955. She then moved to Lethbridge and lived there until she passed peacefully to rest in the Lethbridge Municipal Hospital on Mar. 28.

GROWING BARLEY?

get **LPC*** with **ELEPHANT BRAND**

INCREASE YOUR PROFIT 16 CENTS PER BUSHEL

Barley fertilized with Elephant Brand produces more, and production expense is spread over the larger crop. Each bushel (unit) costs you less to grow. You get Lower Production Cost per bushel - L P C.

In the table below note that fertilizer lowered the cost of producing each bushel of barley by 16 cents and increased the profit per acre by \$9.28.

*Lower Production Cost per unit

	Unfertilized	Fertilized
Yield per acre (bu.)	28	44
Production cost per acre (summerfallow)	\$17.00	\$19.75*
Production cost per bushel**	.61	.45
Value of barley per bushel	.75	.75
Profit per bushel	.14	.30
Profit per acre	3.92	13.20

Extra profit due to Elephant Brand and L P C - \$9.28 per acre

NOTE: Excellent increases also can be realized from fertilizing wheat, oats or flax.

*Includes approximate cost of 50 lbs. per acre of A.P. 11-48-0.
**Production cost per bu. calculated to nearest cent.

See your Elephant Brand dealer today. Talk over a fertilizer program that will give you LPC and more profit from your crop.

It pays to choose from the Elephant Brand line
